2G Fold Down Locking Technology

- Strong and durable locking
- Robust and easy to install
- Suitable for all floor panel widths
- Vertical and horizontal locking

The strength of the mechanical locking is divided into two different aspects, visual gap opening at 0.2mm and total strength before the lock is broken or the product slides apart.

The Välinge profile is by far the strongest lock with a strength exceeding twice the strength of a competitive lock. By using the Välinge profile you are among the strongest in the business.

Please see www.valinge.se for further details.
